## Will Build Rest Room.

At the council meeting held on Monday evening it was decided to build a ladies rest room. The site was not definitely decided on, but the fire and property committee was instructed to prepare a plan and estimate to be presented at the next council meeting.

A letter was read from the department of public works regarding the corner at the south end of Main St. The letter stated that plans for work on the highway had not yet been made, but the matter would be taken into consideration before the plans were completed.

## BIRTHS

May 2 to Mr and Mrs Lester Stauffer a son.

May 4 to Mr. and Mrs. Dave Jensen a daughter.

## Telephone Bridge.

The officers of St. Hilda's Chapter, Eastern Star, entertained the members and friends to an evening of "telephone bridge" last Thursday. Bridge was played at the homes of Mrs. Phillipson, Mrs. McGhee, Mrs. A. C. Fisher, Mrs. Topley, Mrs. Ray Lantz, Mrs. Foote and Mrs. Friesen.

After the games were completed the players gathered at the Odd Fellows' Hall, where supper was served and the prizes distributed. Dancing was afterwards enjoyed.

The prizewinners at bridge were Mrs. W. Gillrie and Mr. O. Kirk; at whist, Miss Alice Tighe and Mr. George Parsons, Sr.

## WEEKLY SERMONETTE

"Without some renunciation there can be no holiness."

## Gun Club Shoot.

The first shoot of the season was held Monday evening and a fair number of shooters took part. The Club has registered in the Dominion Ammunition Co. Competition, and competitors who make a score of 18 out of 25 shot are entitled to a silver spoon given by the company.

George Julien with a score of 19 and Jim Caithness with a score of 18 are both entitled to prizes.

## Obituary.

### MCDONNEL

James McDonnel, aged 52 years, who resided in the Zella district, passed away suddenly at the Belcher Hospital, Calgary, on Saturday, May 2nd. Mr. McDonnel, who had been ill for a short time, went to the hospital Friday to receive medical treatment and passed away the next day.

He was a native of Belfast, Ireland, coming to this district prior to the Great War and working for a farmer in the neighborhood. He enlisted at Calgary in the Strathcona Horse and served his country for three years. On his discharge he took up land in the Zella district. He was a member of the local branch of the Canadian Legion.

The deceased leaves to mourn his loss his widow and three children, one son and two daughters.

The funeral, which was in charge of the Canadian Legion, was held at Westerdale on Tuesday afternoon. Rev. J. R. Geeson conducted the service and Dr. H. C. Liesemer sounded the "Last Post."

The pallbearers were Comrades E. Craig, S. F. Brown, E. Cogswell, E. Lowery, D. Sutherland and W. Egging.

The funeral arrangements were in charge of the Durrer Funeral Home.

### JUSTINA REMPEL

Justina Rempel, aged 75 years, passed away on Thursday, April 30 after long illness. The funeral was held on Sunday at Bergthal Mennonite Cemetery east of town. Rev. John Swatzky officiating.

Justina Peters was born in South Russia on November 28th, 1860. When 16 years of age she came to Manitoba and in 1879 was married to Frank Rempel. They resided in Manitoba until 1901 when they moved to Didsbury and homesteaded 18 miles east of town. They farmed for seventeen years, retiring in 1928 and moving to town. She was predeceased by her husband, who died in August, 1933.

To their union 14 children were born, two sons and five daughters surviving: John, Didsbury; Jake, Carstairs; Mrs. Hy. Bergen, Vauxhall, Alberta; Mrs. W. Unrow, Stettler; Mrs. Albert Mack, Calgary; Mrs. Peter Loewen and Mrs. Peter Jenzen, Didsbury.

The Durrer Funeral Home had charge of the funeral arrangements.

### MRS. F. A. McEWEN

Mrs. F. A. McEwen, wife of Dr. F. A. McEwen, passed away on Wednesday last at Nordegg Hospital after she had undergone an operation.

Before moving to Nordegg she lived in this district for some time and made many friends, who were sorry to hear of her death.

### MRS. MARY DAY

Mrs. Mary Day, aged 71 years, who lived in the south end of town, passed away on Tuesday, May 5th, at the Didsbury Hospital after a short illness.

The funeral will be held Friday at 2 p.m. from the Durrer Funeral Chapel.

Mrs. Day was born in Wisconsin on November 4th, 1865, and was married in 1889 to B. F. Day, who predeceased her in 1914.

She is survived by two daughters, three brothers, one sister and three grandchildren.

## W.C.T.U. Will Hold District Meeting.

The 24th Annual Convention of Central Alberta District W.C.T.U. will be held in Zion Evangelical Church on Tuesday and Wednesday, May 12 and 13.

Following is the program:

Tuesday  
2:00 p.m. Devotional.  
Miss Z. Cressman, Didsbury.

Speakers: Mrs. J. Golay, Olds;  
Mrs. F. W. Gaetz, Red Deer;  
Mrs. B. Bailey, Stettler; Mrs. T. Coote, Clive.

4:10 p.m. Entertainment by the schoolchildren.

6:00 p.m. Banquet.

8:00 p.m. Musical numbers by Didsbury School Orchestra.

Model "Y" meeting by Y.P.B., Didsbury.

Address by Provincial President, Mrs. Grace Knight, Edmonton.

Wednesday  
9:00 a.m. Report of the District W.C.T.U. Work and other business.

Speaker, Mrs. Ewing, Olds.

2:00 p.m. Speaker, Mrs. C. J. Hallman, Didsbury.

Musical Number  
Convention Business.

## WEDDINGS

### COYNE-METZ

A quiet wedding was solemnized by Rev. F. E. H. James at the United Church Parsonage, Olds, at 5 o'clock p.m. Saturday, May 2nd, when Alberta, youngest daughter of Mr. George Metz and the late Mrs. Catherine Metz, was married to Stanley Coyne, eldest son of Mr. and Mrs. Benson Coyne, of Fleet, Alberta.

Mr. and Mrs. Coyne left later to make their home at Alliance.

## Golf Notes.

Work at the course is progressing rapidly—the bridges are all completed and the course is being improved under the direction of the president.

The Secretary-Treasurer would like to remind the golfers not to be bashful in paying their dues as early as possible.

Over sixty girls from Carstairs to Red Deer met at Bowden on Saturday, May 2 to confer on Friendship. A few get-acquainted games were indulged in before the girls returned to the church for a short worship service. The members were divided into discussion groups under the leadership of Connie Smith, Lillian Carscadden, Ena Paul, Myrtle Locke, Mrs. Collier and Mrs. Boorman. Dinner was then served, followed by a lively sing-song.

Officers were elected for the day to preside over the conference as follows:

President, Winnie Adshead  
Secretary, Betty Cummins  
Press-reporter, Betty Cummins

The girls went into voluntary interest groups. Lantern slides were shown on different C.G.I.T. camps throughout the province. Then they joined together for worship, closing with a Friendship Circle. Tea was served and all left for home with pleasant memories of old and new friends.

## "Riley" Gets Praise.

"Aunt Marion," who writes the children's column in the Calgary Herald, was in town a few weeks ago and met Milt Ford's dog, Riley, and following is the story she writes of him in her column:

"I've met the nice dog I spoke of the week before last. A flat tire was the means of our introduction. His name is Riley. His master says he's so good natured that only an Irish name would "fit" him.

"I learned that he 'adopted' his owner when the latter came, a stranger, to the town. The dog, I suspect, found a sort of affinity in the . . . Riley's master thought the townsfolk were very gracious to him, for everyone greeted him with a nice friendly "Hello". But when one of them said, "Hello—Riley," he realized that the salutations had all been for the dog, who was friend to the whole town.

"Well, I was surely glad to meet this magnificent specimen of canine nobility, who sat upon his huge haunches at a word from the master who adores him.

"I wish another Riley would adopt me, but I doubt if there could be another Riley."

Jinx: "Hear about the big fight last night?"

Binx: "No, what about it?"

Jinx: "Our kitten licked his paw."

## SPECIAL SALE of CROCKS & CROCKERY

1 Gallon Crocks—**200** Only to go at this Special Price. No more than **3** to a customer **10c**

Mixing Bowls—8 Inch Polygon, nicely finished **12c**

## The Century Of Science

Research work now being carried on in the laboratories of the world devoted to industrial progress and advancement of scientific knowledge is unlocking vast reservoirs of hitherto hidden facts and data to such an extent that their practical application to man's needs and welfare is bound to profoundly change habits and modes of life and work in the future.

Old and well accepted theories in the realms of astronomy, chemistry, physics, medical science, biology and other fields of science are being shattered almost daily as a result of the work which is being carried on by silent, be-spectacled men and women in these research workshops and so rapidly are new discoveries being made and converted to the use of mankind that those who predict that the present century will go down in history as an era of scientific achievement are speaking with undisputed authority.

In fact, the achievements of the first third of the present century are sufficient in themselves to substantiate the claim for such an assertion even if, for some unknown and unpredictable reason, the work in this field were to be brought to an abrupt halt now.

One does not have to search far to find reasons for this remarkable advance into the sphere of the hitherto unknown and to explain why so much that has remained hidden for centuries is now being revealed in so great abundance.

One of the reasons is the large sums of money which have been made available for the prosecution of such work by wealthy philanthropists. Another is the discovery by commercial organizations that it pays them to devote a percentage of their earnings to the conduct of research work to assist them in unearthing ways and means of improving their products and of reducing the costs of production to enable them to achieve a paramount place in their field or to achieve it. Another is the now well known fact that almost every new discovery, or the search for it, opens the door for another one and often enough paves the way for several more. Thus, the work is not only progressive but cumulative and in more than mathematical ratio, something like rolling up a snowball.

Still another reason is the fact that so frequently, a discovery in one field of endeavor results in the perfection of new equipment which makes it possible to delve deeper into the mysteries of some other scientific realm or some other school of activity.

And these do not exhaust the reasons. There are others referred to recently by Mrs. O. Lazarus. Writing in a recent issue of the Christian Science Monitor an article dealing with developments in the arena of natural science this author said:

"Natural science arose partly out of man's desire to conquer nature and partly from his insatiable curiosity. From the earliest times man had never been content to live by bread alone. It had that within it which impelled it to seek out the mysteries of the world around. It is this curiosity which has forced men to make instruments which have enabled him to sweep the recesses of the starry heavens; to delve among the rocks in order to read from them the history of the earth and those who have lived on it in ages past. In his eagerness he has even penetrated into the heart of matter and seen it dissolve into radiation."

The same writer sheds an interesting sidelight on the effect such work has on the minds of those who make new discoveries, when she says: "Every time he (the research worker) has forced open the locked doors in the Palace of Knowledge, he has become humbler, less certain of his at-one-time unshakable faith in the 'reality' of those things which his hands could touch and his eyes see."

It is unfortunate that in Canada sufficient recompense is not always given to the men and women who are devoting a lifetime to unlocking the mysteries of science for the benefit of the country and her people; at least, that is too often the case with those who are prosecuting their work under government aegis. As a result, more adequate remuneration sometimes proves too tempting and they are lured away south of the international boundary to the great loss of this country.

When the benefits which accrue to the country as a result of the development of a rust resistant wheat—to quote an illustration—are weighed in the balance against the remuneration these trained experts receive it is not surprising if better offers from elsewhere for their services are sometimes accepted.

John D. Rockefeller says that the first money he ever earned was made by raising turkeys when he was seven years old. His mother gave him curds from the milk to feed them.

### His Only Worry

The doctors had great difficulty in getting a negro soldier, who had been badly wounded by shell-fire, to take an anaesthetic. He seemed worried about something, and urged them to get to work without an anaesthetic, as he wanted to watch them.

At last they got him to take the chloroform, and all went well until the operation was over.

The stitching was just being begun when he jerked himself back to consciousness and said: "Doctor, don't make a mistake. Don't stitch me with white thread."

### Returns Show Increase

Returns for the 1935 Christmas seal campaign to raise funds to fight tuberculosis were encouraging and final receipts were expected to show a 10 per cent. increase over 1934, the Canadian Tuberculosis Association announced. The association will hold its annual meeting at Vancouver, June 22, 23, 24.

### Trying Old Experiment

#### New Jersey Doctor To Use Surgical Grafting Principle

Sixteen-year-old John Seeley's hope for artificial restoration of the arms he lost last November under the wheels of a train at Nutley, New Jersey, rested to-day on application of a 65-year-old surgical grafting principle.

A Newark orthopedic surgeon, starting with an operation at Beth Israel Hospital, expects to apply the discovery of an Italian physician, Vanghetti, about 1870, using muscle grafts to connect artificial limbs.

The surgeon, who has asked his name be withheld, has been engaged by the crippled children's committee of the Nutley Elks Lodge. As he described the operation, a flap of the patient's skin is drawn into a tube and inserted under the muscle. This operation will be performed twice on each of the stumps of Seeley's arms.

When the tissues have healed, he said, cineplastic arms would be attached to the flaps. The artificial arms and fingers then would be operated with the flexing of the muscles.

### Enjoys Life At Goldfields

#### Well-Worth Trying Says Wife Of Resident Doctor

Completing her first season in one of the north's new mining camps, Mrs. E. N. Dunn, a bride of one year, says there is nothing like joy-riding in a dog sleigh.

The young woman, wife of Dr. E. N. Dunn, resident doctor at Goldfields, Sask., accompanied her husband to the Lake Athabasca mining field last fall.

During a brief stopover at Edmonton after a long aeroplane flight from the northern mining town, she said, "I enjoy the life very much. It's all very novel, and it's well worth trying."

Goldfields has a pleasant social life, she added. About 30 women and 300 men comprise the camp. Bridge, dancing and dog sleigh riding are in great favor. In addition she often travels with her husband.

### Broadcast In Eskimo

#### Bishop Of The Arctic Talked To Charges In The North

A bishop's voice rang through the air for thousands of miles on a recent Saturday to carry a greeting in Eskimo to slant-eyed friends who sat before radio sets from the sub-Arctic fringe to Oache Peninsula. Rt. Rev. A. L. Fleming, Bishop of the Arctic, whose Diocese extends across the great expanse of winter's twilight land, spoke in English and Eskimo to his friends and charges in the north, broadcasting from Ottawa on the Canadian Radio Commission's Northern Mission program.

### Animal Day In China

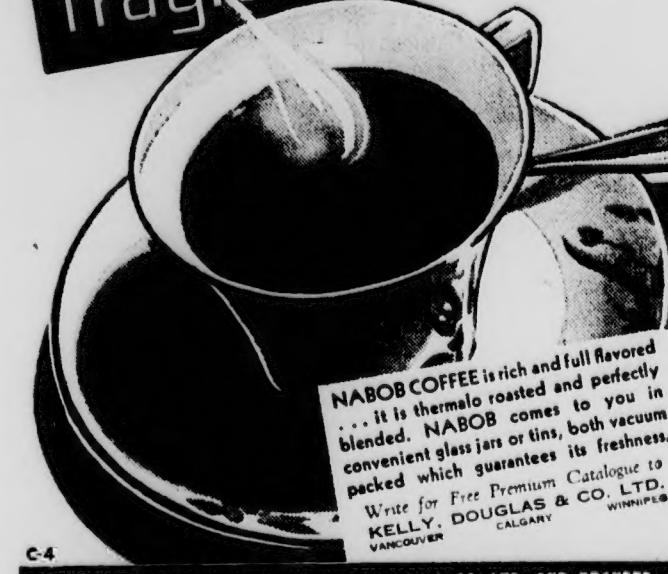

In observance of Animal Day in China recently not an animal was killed in the country for 24 hours. All slaughter houses remained open but not one head of live stock was taken in and cities refused to do away with strays in pounds. The Society for the Prevention of Cruelty to Animals gave open-air dramatic and oratorical messages on kindness to dumb beasts.

There are approximately a half million different sorts of living creatures on the earth. About three-fourths of this number are insects.

### New Device Invented

#### Artificial Ear Gives Effect Of Sound On Human System

An artificial ear, for the exact measurement of sound and its effect on the human system, has been invented by an electrical firm at Prague. It is to be used by the Czechoslovak Ministry of Health in its investigations into the noise problem. Previous sound-measuring devices are stated either to have been too subjective, which has led to inaccurate results being obtained and difficulty in calculation, or they have not measured the true effect of various sounds on the delicate mechanism of the human ear. The new device, it is claimed, represents exactly, in an easily measurable form, the way in which sound affects the ear of a living person.

### Ships Without Funnels

#### Prediction Made That Smoke Will Be Discharged Into Sea

Funnelless ocean liners in the near future was a prediction made by John Johnson, chief engineer of the Canadian Pacific Steamships, Ltd., addressing the Institution of Mechanical Engineers at London, England, recently.

Speaking on the future of steam propulsion, Mr. Johnson said that smoke and gases from the furnaces would be used until they were almost cold, the heat extracted from them being put to use for work.

The gases would then be washed with sea water, and, when clean, they would be discharged into the sea just above the water level.

Soviet workers are boring an oil well on the sea bottom in the vicinity of Baku.

### New Electric Trains

#### One Of Longest Electric Tracks Will Be Completed Next Summer

Rapid progress with the electrification of the Southern Railway's main line to Portsmouth harbor makes it likely that the whole scheme, costing nearly \$15,000,000, will be completed by July, 1937.

Some 95 route miles, corresponding to 242 single track miles, are to be converted, and when finished the 74 miles from London to Portsmouth will be one of the longest electric tracks in Britain.

The present longest stretch is the London to Eastbourne, Hastings and Ore section opened last July.

Forty-eight new four-coach motor units, 19 of which will be provided with kitchen-cars, are among the new rolling stock being constructed.

### Tourists Will See Things

#### Parry Sound, Ontario, To Have Totem Pole Traffic Light

The eyes of a moose, alternately blinking red and green from atop a mighty totem pole, will help direct tourist traffic through Parry Sound, Ontario, this year. Plans for the totem pole traffic light were explained to the Ontario Good Roads convention by J. M. Daly, Indian agent from Parry Sound. The pole will be a vast affair, facing the highway, and the images carved on it, from top to bottom, will include the moose, a bear, a deer, two geese, duck, an early Canadian voyageur in a canoe, a tepee, a school house, and a church. The eyes of the moose, co-ordinated with traffic signals, will be the only animated portion.

A tail is attached to a kite for balancing purposes.

Warehouses At Calgary, Edmonton, Regina and Winnipeg

### CONSTIPATION STOPPED AT ONCE!

"Constipation troubled me for months. Nothing seemed to do any good until I tried Fruit-a-tives. They brought quick and complete relief," says Mr. Huddleston, Belleville, Ont.

Fruit-a-tives are the discovery of a famous Canadian physician. He concentrated extracts of APPLES, ORANGES, FIGS, PRUNES and HERBS. The result is a natural remedy scientifically prepared for best results. Convenient—an easy-to-swallow tablet. Safe—do not contain harsh purgatives or habit-forming drugs. More than a laxative—Fruit-a-tives bring lasting relief. They tend to strengthen all organs of elimination. Their tonic effects help the entire system.

**Fruit-a-tives**  
A FAMILIAR TREATMENT FOR CONSTIPATION

## Moisture Conditions Are Back To Normal In Western Grain Belt

Despite the severity of the winter, Manitoba has only received normal precipitation, according to figures contained in statistics prepared by the Dominion meteorological office, covering the period, Aug. 1 to Feb. 29.

The same source reveals that throughout the grain belt of the Canadian west moisture conditions are about back to normal. Alberta leads with a five per cent. average increase over normal. Manitoba is next with normal conditions and Saskatchewan is next with a deficiency of one per cent.

Northern areas of the three provinces fared best as far as rainfall was concerned.

Alberta's excess over the average was mainly due to abundant moisture in the north of the province from Manitoba district to the Peace River. This great area was the wettest in the west with an increase of 33 per cent over the normal. Moderate gains were registered in northern and southeastern Saskatchewan and western Manitoba. On the other hand distinct losses were shown in southern Alberta and southwestern Saskatchewan.

A notable feature of the distribution of precipitation was the large excess in October and November in northern Alberta and northern Saskatchewan. A large portion of this was probably frozen into the ground and is now available for the spring crop.

In southern Alberta and southeastern Saskatchewan rainfall in October and November was above normal, while central Alberta and southwestern Saskatchewan had nearly normal moisture, but moderate excesses in November. Throughout Manitoba the precipitation in these two months was below the average.

Summarizing the records by months, it is seen that in northern Alberta precipitation was above normal in every month except September, when there was a deficiency of 50 per cent. In both October and November decided increases were reported. Central Alberta had small losses in every month but November and January; in the latter month more than twice the normal amount of precipitation occurred. The southern section of the province experienced a big crop in August and September, but more than twice the ordinary amount of rain fell in October.

In northern Saskatchewan changes from the average were quite small, except in November, when 70 per cent. and 60 per cent. excesses occurred, respectively. The southwest had a poor showing except in November, when a 25 per cent. increase was recorded. Southeastern Saskatchewan was more fortunate with above-normal precipitation in August, November, January and February.

Throughout Manitoba, rainfall was about 60 per cent. above normal in August, but was well below in September and October. The other months showed nearly normal precipitation in western Manitoba, while the eastern part of the province had about 30 to 35 per cent. below normal fall in November and December and 25 per cent. excess in January and February.

### British Speed Records

#### Train That Was Late Set New Fast Time

It was revealed recently that in a remarkable dash to make up time, the Bristolian express from Bristol to Paddington made an outstanding run.

The express left Bristol eight minutes late at 4:38 p.m., but arrived at Paddington at 6:15 p.m., only one minute after its scheduled time, having covered the 117½ miles in 98 minutes at an average speed of 72 miles an hour.

The fastest speed on British railways is the L.N.E.R. Silver Jubilee's 112 m.p.h. achieved last September during a run between Newcastle and London.

### Certified Seed Potatoes

#### Good Ones Cannot Be Selected By Tuber Appearance Alone

With the increasing prevalence and number of diseases of potatoes and the greater risk in purchasing seed about which nothing is known by the purchaser, has come the realization that the production of high class seed requires special care. A very satisfactory system of seed potato certification has been developed in Canada by the Division of Botany, Central Experimental Farms Branch, and is based upon two field inspections of the growing crop, and of the tubers after harvest. Only seed potatoes which meet the standard for certification are eligible for sale as Certified Seed, and official tags are supplied for every package of such seed. Therefore, if the Government tag is not on the package, the potatoes are table stock only and seed price should not be paid. There are two grades only of seed potatoes, "Certified Extra No. 1" and "Certified Small Sized 1½-3 ounces." If the tags do not specify either of these grades, the potatoes are not seed potatoes.

There is definite need of field inspections for seed potatoes as certain virus diseases are not observable in the tubers and can only be identified in the growing plants. Obviously only low yields can be expected from diseased plants. It is a big mistake to conclude that good seed potatoes can be selected by tuber appearance alone.

There are no regulations in effect which prevent anyone from using any kind of potatoes for seed purposes, and some of the stores are selling table potatoes in their seed departments, but it is the purchaser's privilege, if he pays more than regular table stock prices, to demand the official tag, otherwise he may get only table stock.

Well over a million bushels of certified seed potatoes have been sold annually for the past nine years. The bulk of the seed produced is exported. The best potato growers in other countries appear to appreciate the value of good seed and in spite of plentiful local supplies will pay the additional freight and tariff charges to secure Canadian Certified Seed potatoes. Growers are advised to secure their supplies immediately as seed stocks are getting very low. Lists of growers having seed for sale are obtainable, free, from the Dominion Botanist, Central Experimental Farm, Ottawa.

### Donkey Has Queer Taste

#### Pet Of Late Princess Victoria Will Eat Cigars

A donkey which eats lighted cigars and cigarettes, or any sort of tobacco, now lives in retirement at Coppins in Iver, England, the home of the late Princess Victoria. His name is Dinkie.

For many years ever since she went to live at Iver Dinkie had been a pet of the Princess. At times she used to go to his paddock to give him an extra special feed of sugar and carrots. Since the princess died recently he has missed those occasional titbits given to him by her own hand.

The King, too, knows about him, for he has often seen Dinkie grazing contentedly in a paddock on the Coppins estate.

"Dinkie will eat any tobacco you like to give him," one of the members of the staff at Coppins said. "It is not true that he smokes cigarettes—that is an exaggeration. What happens is that if you put a lighted cigarette between his lips he will eat it without hesitation."

When a reporter tested him by offering him a cigar, Dinkie was obviously pleased. He sniffed the cigar, and before anyone could offer him a light, it had disappeared into his mouth. A lighted cigarette went the same way.

Nobody knows Dinkie's age, but it is certain that he is over 30. Although he has lost nearly all his teeth, he looks fat and well. 2146

### Would Revise Place Names

#### But Idea Might Not Be Acceptable For Communities

A writer argues for better sounding and more significant place-names in Canada than he evidently feels now exist in a number of cases. He suggests the creation of a Canadian Non-enclosure Society to help in the work.

Says this writer in part: "Many places in Canada possess assets in the significance, in the euphony, in the association, history, romance, in the general outstanding individuality of the names they are known by. In each of the provinces there are cities, towns, villages, rivers and streams whose names are an impersonal link with the past, with the romance of the pioneer, with aboriginal lore, with tradition. But at the same time a lot of our names are as flat, commonplace and insipid as a bran-mash dessert—cheap, plain and even derogatory—in the sense of inspiring sarcasm or scorn."

This writer may feel that communities such as Moose Jaw and Medicine Hat might welcome suggestion about a change of name. On the other hand, would they? They might be as mad as a boil about it. The names they have may suit them even if on occasion they may provoke wonderment in some quarters. —Regina Leader-Post.

### New Diagnosis Of Disease

#### Electrical Quality Found In Human Body To Be Used

New progress in the use of an electrical quality of the human body for diagnosis of disease was announced at the Massachusetts Institute of Technology.

This quality is called "Q". It is related to the manner in which the body tissues conduct an electrical current. It is easily defined as the relation between the energy stored momentarily by the tissues and the energy lost by heating the tissues.

Dr. J. Warren Horton, research associate, has invented an instrument by which these two quantities may be read on dials. It measures the current conducting characteristics of the internal tissues although it is connected to the patient by electrodes in contact only with the surface of the skin.

British investigators, prior to development of this instrument, had believed measurements of "Q" might be substituted for the present basal metabolism tests. Results with the new tech meter indicate this is probably not the case but after further study, "Q" may prove eventually to be a valuable indicator for various bodily conditions and thus be of great aid in medical diagnosis.

The Chinese Imperial cookbook contains 96 volumes and weighs a ton. It is said to be the largest cookbook in the world. An abridged edition of the same work contains 18 volumes.

## Founders Of World Poultry Congress Have Realized Their Hopes

### Popular In England

#### British Publication Says Canadian Turkeys Hard To Beat

In the British Fish Trades Gazette, published in London, England, one of the leading publications dealing with the produce trade, there has appeared recently several complimentary articles on Canadian agricultural products, principally with reference to Canadian poultry. In its issue of 7th of March, 1936, one of its writers states:

The class of turkeys which are arriving from abroad that is, the fresh killed varieties are very good.

"Apart from these we shall no doubt have some Canadian birds on show, and as you know, a good Canadian turkey wants a lot of beating if it is the right quality and pack.

"To sum up the turkey trade, I consider that the most reliable pack to which to look forward during the next few months will be the Canadians if they can be shipped at a reasonable price. Present quotations are rather beyond the reach of the trade, but holders on the other side may think differently in a few weeks' time."

### Will Give Up Battle

#### Federal Government Finds Atlantic Again Menaces Lighthouse

The federal government is still losing in its 137 year old battle with the Atlantic to keep a light burning on that dangerous stretch of North Carolina shore known as Cape Hatteras. For the second time it has been forced to abandon its lighthouse there, the tallest, the most famous, and perhaps the most beautiful in the country.

The first tower, 112 feet tall, was built deep inland in 1799. But year by year the ocean eroded the Hatteras beach and approached closer and closer to the tower. In 1870 this light tower was abandoned. A new brick tower, 193 feet high, was built farther back, a full mile from the sea. But since then the sea again has eaten almost to its base. The ocean is now less than 100 feet away.

It is planned to leave the lighthouse stand; one day it will be claimed by the sea. A new steel tower will be put up a mile farther inland.

### Exports To French Africa

Wheat, flour, and farm implements are among the leading Canadian exports to French Africa. The area of French possessions in Africa nearly equals that of the Dominion of Canada. The population is over 32,000,000, of which more than 1,000,000 are of European origin.

The question is often asked "What are World's Poultry Congresses and what is the big idea behind them?"

In view of the forthcoming World Poultry Congress which will be opened on July 24th at Leipzig, Germany, no better answer can be given than by quoting an extract from an article appearing in the Leipzig press, written by a Canadian, F. C. Elford, Dominion Poultry Husbandman and Past President of the World's Poultry Science Association.

"World Poultry Congresses" states

Mr. Elford, "are the triennial meetings of the World's Poultry Science Association which was founded in 1912. The Congress in Leipzig this year will be the sixth. The other five were held at The Hague, Holland in 1921; Barcelona, Spain, 1924; Ottawa, Canada, 1927; London, England, 1930, and Rome, Italy, 1933.

"There were at least two good reasons in the minds of Sir Edward Brown and Professor J. E. Rice (two of the originators) when they debated the formation of the World's Poultry Science Association and later the Congresses. One reason was to further international information upon poultry matters; the other reason was to encourage world-wide acquaintance and good will. Both of these objectives have been attained beyond the highest hopes of the originators. The number of countries represented in the membership of the Association and in the attendance at the congresses demonstrate this.

"World poultry congresses are not merely 'poultry shows'; they are world gatherings where more countries have been represented than at any similar event. At the congress in Canada in 1927, delegates from 43 countries were present. In England in 1930, more than 60 nationalities were represented. Accredited delegates to these congresses number thousands and the local attendance in some cases is reckoned by hundreds of thousands. The reason that so many countries send delegates to these congresses may be that poultry is universally accepted as an economic asset and touches the lives of so many people that every country desires to know all there is to be learned of the science of breeding, feeding, and marketing. The Congress sessions, at which the world's most distinguished scientist are heard in lecture and debate, bring out the latest research in poultry culture, while at the same time the national and live bird exhibits demonstrate visually the degree of application of science that has been made in the various countries."

### Protecting Rare Bird

#### Egret Is Guarded In Florida During Nesting Season

The "egret guard" is on duty again in the Florida everglades. The department of agriculture at Washington has mobilized all game agents in the Florida district for the annual watch over the bird during its nesting season.

The egret, whose white, silky plumes are ranked in value with the feathers of the bird of paradise, was, in 1914, in danger of extinction. Plume hunters slaughtered them ruthlessly until the Audubon Society obtained federal legislation protecting the bird. The law makes the wearing of egret plumes a misdemeanor.

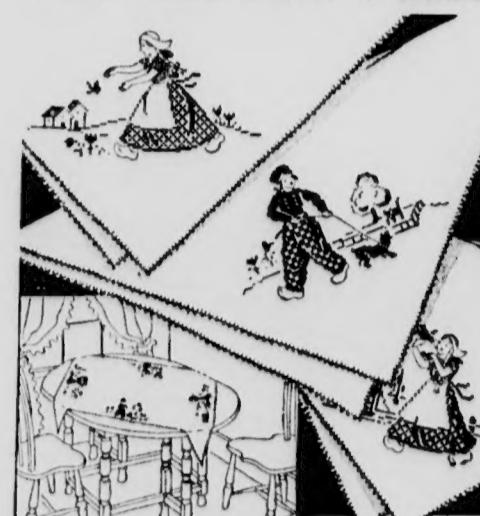

### Use For Walnut Shells

Industrial use for walnut shells—a final step in eliminating waste from commercial shelling operations—has been announced. California Walnut Growers' Association engineers and chemists said the most important of 15 uses found for ground walnut shells are in hard and soft rubber compounds, asphaltum linoleums, roofing paper, filler in dynamite and abrasive mechanics.

Certain plant diseases are found to increase and decrease in cycles during periods of years, a discovery which will aid in the farmer's fight against them.

### Cross Stitch Offers a Dutch Treat

#### Household Arts by Alice Brooks

PATTERN 5405

At Breakfast or Lunch-time you'll gaze with delight at this spirited Dutch pair, Hulda and Hans, embroidered on your dainty cloth. It's such an easy way to make your breakfast-nook gay, for the four motifs are quickly done in easy 8-to-the-inch cross stitch on curtains, cloth, scarf or pillow. You can do them in one color or many—it's a grand way to use up scraps of floss. If you haven't the Dutch towels, companion pattern 5268, you'll want to send for it too.

In pattern 5405 you will find a transfer pattern of four motifs averaging 7 x 12½ inches and four motifs, 2½ x 3 inches; color suggestions; illustrations of all stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg.

**J. E. Gooder - Editor & Manager****When There Is No News**

A throb of sympathy was roused in newspaper offices from coast to coast by a mournful wail from the Nantucket Inquirer, which laments the lack of news in the district.

The Nantucket paper rays:

"There has not been a fire, there has not been a bank robbery, there have been no births, there have been no marriages, there has not been a runaway horse, there has not been a railroad accident, there has not been a shipwreck."

There has not been a murder, no one has fallen from a roof, no tramps or suspicious looking persons have been hanging around, no aeroplanes have cracked up, there has not been a hold-up, no man has run away with another man's wife, no one has absconded with another person's money, there was no president's birthday ball.

"As a matter of fact there has not even been a good dog fight to liven up Main Street."

Every weekly paper is from time to time a victim of this lapse of news and little can be done about it. The newspaper does not make news but merely records what happens. And in this recording it must have the interest and help of its readers.

It is a commonplace experience—it must be—for readers to say "there's nothing in the paper this week." Perhaps there would be more news if all subscribers thought of the paper as theirs and remembered to pass on any little item of which they are aware. Perhaps it is literally true that there are periods in a community when nothing of an eventful nature is happening. At any rate when readers say, "there's nothing in the paper this week," they may rest assured that the newspaper office knows it and has suffered grievously over the reluctance of the community to make news.

**Items of Interest**

Wheat producers over the prairies are displaying increased concern over the problem of the government wheat board continuing to pay 87½ cents for the crop they are now busy seeding. Various agrarian organizations have written board members and their representatives at Ottawa, but are unable to secure any information. It is intimated that the "cut-off" date covering deliveries on present stocks in producers' hands will possibly be delayed until late in July. Meantime the silence of the authorities on the subject of continuing the minimum set last fall is not expected to curtail wheat acreage.

Orvis Kennedy, chairman of the Edmonton Social Credit Council, has announced that Social Credit forces will not contest the by-election being held at Edmonton on June 22 to fill the vacancy in the provincial house caused by the appointment of W. R. Howson, leader of the Liberal party, to the Supreme Court of Alberta. "It was the unanimous decision of the meeting not to run a candidate," Mr. Kennedy said. "The feeling was that it would not be right to put the government to the expense of an election."

**Doings of Our Neighbors**

**AT CARSTAIR:** Angus McKay caught a couple of truck drivers loading up with gas drums at the B.A. station early Monday and as a result they appeared before A. S. Gough who fined them two dollars and costs.

**AT OLDS:** H. A. Samis has been elected president of the Olds Horticultural Society.

Tom McKercher, pioneer hardware merchant of Olds, known to everybody in the district, also well known throughout the province, has sold his hardware stock and is retiring from business. The purchaser is Mr. Gordon Kaiser, experienced hardware man, who has carried on a hardware business for many years at Castor.

A car driver failed to stop, look and listen before crossing the main railroad crossing, with the result that he or she injected a thrill into a few onlookers as the car rolled over the rails only a few feet ahead of a southbound train.

**AT INNISFAIL:** There were 360 entries in the musical and dramatic festival which was held in the Innisfail Inspectorate last week.

**CARD OF THANKS**

We wish to thank all our friends and neighbors for the help and sympathy extended us in our recent bereavement.

Mr. and Mrs. Cody Bloxham  
Mrs. Mary Day.

**GOPHER POISON NOTICE.**

The Municipality of Mountain View, No. 310, has arranged with the dealers in gopher poison at Didsbury, Olds and other points, to supply an equal amount of gopher poison to that paid for by the farmers of the municipality, the arrangement to be in effect until the 1st day of June, 1936.

The Council requests that the farmers place their poison early.

IT'S WHAT  
HAPPENS  
HERE  
THAT COUNTS

## It's the Horse Power on Drawbar, Belt and Take-off That Counts!

The valve-in-head motors in Oliver Hart-Parr 28-44 Tractors are world-famous for surplus power—and equally famous for the way they deliver power to the drawbar, belt and take-off. In both the Oliver Hart-Parr 18-28 and 28-44 Tractors you get maximum delivered power from the fuel. Friction doesn't rob you of your profits. Long life and low service cost is built into every machine.

The 24-44 challenges all other tractors for dependable, trouble-free service. Come in and let us describe its many fine points in detail.

**Westcott Notes.**

Westcott Women's Institute met at the home of Mrs. Jessie Ray for the April meeting, with 12 members and three visitors present. Following the singing of "O Canada" and repetition of the Creed, the minutes of the last meeting were read and adopted, after which roll-call was answered by naming a province and its premier. It was decided to run a ginger cookie contest next month and to hold a short course during the summer months, the subject to be announced later. A paper on "Canadianization" was given by Mrs. Harry Steckley and thoroughly discussed. The constituency convenor, Mrs. N. Eckel, gave a short talk which was much enjoyed. A geography contest followed and the meeting closed with the singing of the National Anthem, when lunch was served by the hostess.

**"BUY IN DIDSBURY"****Melvin Notes.**

Mrs. Peter Johnston, Ruth and Randolph, visited Mr. and Mrs. Ed. Vetter of Three Hills over weekend.

We are sorry to report that Mrs. John Schneidmiller is back in the Didsbury Hospital. We hope for her speedy recovery.

Miss Beatrice Landen returned home Monday after recovering from an appendicitis operation in the Didsbury Hospital.

The last report from Mr. August Krebs, who is in the Calgary General Hospital, is very favorable, we are pleased to hear.

Misses Mildred Brown, of Crossfield, and Florence Bissett, of Byron, spent the weekend with Dorothy Youngs at her home here.

We welcome Mr. and Mrs. John Kershaw to our district. They have taken the place formerly occupied by Bryan Johnston, who has moved to a farm west of Carstairs.

**Burnside Notes.**

Lone Pine W.I. will meet in the Hall Thursday afternoon, May 14th.

Cipperley Bros. have been threshing for Mrs. Jake Brechwell.

Miss Nettie Wall, of Didsbury, visited her mother Sunday last.

Earl Dedels spent Sunday with Carstairs friends.

Fred Doll and Bill Wulawka were Sunday supper visitors at the Mc Culloch home.

Mesdames N. Eckel and B. Woods spent Thursday with Mrs. J. Hughes at Westcott.

We extend congratulations and best wishes to Mr. and Mrs. Stanley Coyne (nee Alberta Metz), with prosperity and happiness in their new home at Alliance.

**SOCIAL CREDIT NOTES.**

Didsbury Pioneer Group held a well attended meeting at the home of Otto Klein on Tuesday evening. The subject studied was "National Control of Credit, by G. G. Compston." Several items of business were dealt with, after which a delightful lunch was served by the social committee. The next meeting will be held at the home of J. H. Hehn on Monday evening, May 11th at 8 o'clock.

S. C. Group No. 1, organized in August, 1934, held its regular meeting Monday night at the home of Mr. and Mrs. Lawrence Dickau. Two new members were registered. After business was dispensed with, the members in general talked over the management of their proposed box social, which the group will sponsor on Saturday night, May 16 at 8 o'clock in the Peterson Block. Everyone will be welcome. Ladies are requested to bring a plain box. A program will be provided and a good time is assured all. Lunch was served by the ladies and a lively conversation brought a most pleasant evening to a close.

**Evangelical Church Notes**

Mothers' Day will be observed next Sunday morning. The pastor will preach a special sermon to the mothers, entitled, "The Mother's Task." Plan to attend this service in honor of YOUR mother. At the evening service the sermon will be the second in the series of Pictures of Jesus—"The Garment He Wore."

**Knox United Church Notes**

Next Sunday is Mothers' Day and there will be special services throughout the day. In the morning at 11 there will be an open session of the Sunday School, to which all parents and friends are invited. In the evening there will be special reference to the theme of Motherhood, under the title of "A Mother's Song." There will also be special services at Westcott and Westerdale and we are planning for large congregations. Everyone cordially welcome.

**"MOTHER"**

Many are the thoughts that fill my heart  
Of you, Mother, tho' we're apart.  
To me there are no words to express  
How I appreciate your love and tenderness.  
Every kind deed tho' I seemed too blind  
to see,  
Reaping them now, I credit all to thee.

There is not another  
As kind as you, dear Mother.

More and more each day I live,  
Oh, how I wish that I could give  
The love and care you gave to me,  
How can I ever repay thee?  
Each thing wrong that I'm about to do  
Reminds me that only good was taught  
by you.

There was ne'er another  
As true as you, dear Mother.

May many more birthdays come to cheer  
Our Mother Dear, year after year,  
To fill your life with sunshine here,  
Holding you in our hearts so near.  
Eternity holds for you a crown of gold;  
Reaching out His arms may God you end.

There will never be another  
As loyal as you, dear Mother.

—Margie Folkmann

## Do You Ever Wonder

Whether the "Pain" Remedy You Use is SAFE?

Ask Your Doctor and Find Out

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about "ASPIRIN."

He will tell you that before the discovery of "Aspirin" most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate "Aspirin" among the *fastest methods yet discovered* for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it *safe* for the average person to use regularly. *In your own interest remember this.*

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

**Demand and Get "ASPIRIN"**

## WORLD HAPPENINGS BRIEFLY TOLD

General Baptiste Estienne, inventor of the French tanks whose lumbering charges helped break the back of German resistance in the last days of the war, is dead. He was 75.

The Canadian wheat board disposed of the last of its wheat held in the United States on April 6 when its holdings at Toledo, Ohio, were disposed of to an export house.

Punishment was visited swiftly upon industrial workers who failed to vote in the March 29 Reichstag elections. They were summarily dismissed from their jobs.

King Edward has approved a recommendation that during his reign the Saturday before Whitsunday shall continue to be the day fixed for the king's birthday holiday in the civil service.

With a view to imparting education through the medium of talkies a proposition has been put forward to install a set of radio receivers in all the 350 municipal schools of Bombay, India.

A complete embargo on exports from the United States on scrap tin, large quantities of which recently have been shipped to Japan, was ordered by Secretary of State Hull for the period from April 16 until July 1.

The late Rudyard Kipling left an estate of £155,288 (\$775,000), gross value, probate of his will showed. The house and land at Burwash and the income from his residual estate were left to his widow.

School children throughout the province of Hsichow, China, are contributing their coppers (one-ninth of a Canadian cent) toward a fund for the purchase of a golden sword for the nation's generalissimo, Chiang Kai-Shek.

William C. Gussow, of Boston Tech., Cambridge, Mass., and formerly of Saskatchewan University, Saskatoon, has been awarded a research fellowship in geology for 1936-37; it was announced at Ottawa by the fellowship board of the Royal Society of Canada.

The Mackenzie river, Canada's longest stream, measures 2,500 miles from its mouth to its headwaters; the St. Lawrence, second longest, is 1,900 miles long.

## VICTORIA UNIVERSITY TO CELEBRATE CENTENNIAL

The one hundredth anniversary of the granting of the Royal Charter by King William IV. in 1836 to Upper Canada Academy, Cobourg, Ontario, as an institution of higher education, will be observed this fall by Victoria University, Toronto. The Upper Canada Academy changed its name to Victoria College in 1841, and this was changed to Victoria University in 1884. Victoria College conferred the first degree in Arts ever

conferred in Upper Canada, in 1845. The original building of Upper Canada Academy, later Victoria College, in Cobourg, was opened in 1836 and still stands. This building is pictured in (1). Emmanuel College, the theological branch of Victoria University, was opened in Toronto in 1931 and is shown in (3) above. Victoria College (2) the Arts Faculty of Victoria University, was opened in 1892 when Victoria College federated with the University of Toronto, and moved to Toronto.

### Will Need Fifth Liner

#### Over 6,000 Reservations Made For Vimy Pilgrimage

A flotilla of five ships will convey close to 6,000 pilgrims to Vimy Ridge in July for the unveiling of Canada's national memorial there. In consultation between Brig.-General Alex Ross, Dominion president of the Canadian Legion, and representatives of the Canadian Pacific and White Star-Cunard steamship companies, the decision was reached to augment the formerly arranged four liners by an additional one.

The capacity of the "troopships" is 5,950. Already 6,400 persons have indicated their intention of making the journey; but the expectation is that before the date of embarkation quite a number will "drop out."

General Ross said that the 5,950 was the "absolute limit."

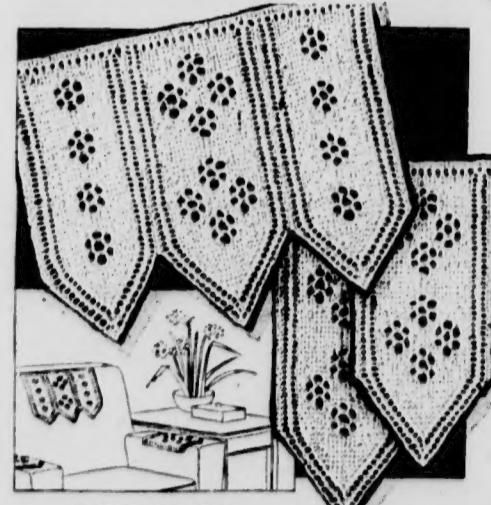

"We announced many weeks ago that the deadline for registrations would be March 12," he said, "and it naturally follows that all persons who signified their intention of taking part in the pilgrimage and had complied with the requirements as on that date would receive first consideration. Those who came in after must of necessity be placed on a waiting list, their expectations being dependent solely upon whatever vacancies result from cancellations."

The Legion head announced that Col. D. E. McIntyre, D.S.O., M.C., of Owen Sound, had been placed in charge of "pilgrimage movements." Col. McIntyre, with a staff which will be furnished him, will co-operate with those responsible for the actual moving of this pilgrim host to ensure no slip up in the program.

Col. McIntyre was general staff officer, first grade, of the 2nd Canadian division. He served as intelligence officer of the 28th battalion, was advanced to the staff and became I.O. of the 4th Canadian infantry brigade, later proceeding to division.

I see by this paper that in some sections of the east a wife can be bought for \$5.00. Isn't that awful? Well, I don't know. A good wife might be worth that.

### You Can Knit This Chair Set Quickly

A new Chair Set's quickly espied by family and friends when it's as lovely a knitted one as this. And Alice Brooks has designed it especially for your furniture's Summer dress-up. What matter if you are a Beginner! You can knit this simple design—easily, quickly, with humble string the only material required. You'll soon have learned the "key" design, and then you repeat—three panels for a chair back, one panel for the arm.

In pattern 5561 you will find complete instructions for making the chair set shown; an illustration of it and of all stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

### Cost Of Armaments

#### Writer Figures Out Per Capita Cost To Each Country

When George Bernard Shaw wrote "Arms and the Man" he was not dealing with the economics of the question, but a writer in the London Morning Post figured it out that way recently.

He finds that in Canada the cost is \$1.24 a person; in New Zealand, \$1.50; Denmark, \$2.18; Australia, \$2.40; Japan, \$3.70; Belgium, \$4.10; Italy (at war), \$8; Great Britain, which defends a vast empire, \$9.50; and the United States, \$5.60.

No statistics are available for Germany. But the United States, for the first time since the war, has begun borrowing money for arms, battleships, and aircraft.

And if there is going to be an armaments race these figures will be much higher. The average British family of five pays nearly \$50 a year for defences. Obviously Great Britain has strong reasons for striving so hard for peace.—St. Thomas Times-Journal.

### Toast To The King

#### Orders Covering Correct Procedure Issued To Fleet

Fleet orders were issued covering the correct procedure in connection with the toast to the King.

The orders state that the health of His Majesty should be honored seated in all naval messes, whether on ship or on shore, on all occasions except when the National Anthem is played, when the toast should be drunk standing.

When toasts for foreign heads of states are included, they and that of the King should be drunk standing, whether the National Anthem is played or not, the orders provide.

The custom of drinking the loyal toast seated is said to have originated in the days of wooden warships, where accommodation was limited and there was insufficient headroom for a man to stand below decks. Any present-day visitor to the Nelson or the Victory at Portsmouth will appreciate this.

Household Arts by Alice Brooks

Excellent for Fairs and Showers

PATTERN 5561

Many people associate the Red Cross Society with war and fail to notice the great work it does in time of peace. The fact is the Red Cross is always active somewhere in every country where it has branches, and the organization is such that it is ready to leap to the call whenever and wherever there is an emergency.

This has been exemplified by the wonderful manner in which it has responded to the flood conditions in the United States. Most of the 400,000 homeless people are being cared for by the Red Cross, 171,000 being succored in Pennsylvania alone. A stupendous effort was set in motion at a moment's notice, and without it the municipal, state and federal authorities would have been in a desperate situation.—St. Thomas Times-Journal.

### The Good Old Days

#### Statistics Show Life Not Any More Perilous To-Day

After glancing over the latest mortality statistics and re-reading that gruesomely pithy—"And Sudden Death" article, we most of us assume, without troubling to inquire very far, that this age is probably more noted than any other for its high percentage of violent fatalities.

Yet it is not only possible, but probable, that we have fallen into another popular error. Because of the rather terrifying "toll of the roads"—and foolhardy drivers—and because of the publicity now attendant upon such unfortunate occurrences, we may perhaps be pardoned for jumping to conclusions. But that does not make the conclusions correct.

By way of corroboration, the Metropolitan Life Insurance Co., famed for finding out things by examining facts and figures, offers a new suggestion. Some of its researchers took a glance back in history and divulged the astonishing information that of 275 representative Greeks and Romans, 136 came to violent ends. Adding another 125 celebrities for whose death no causes were registered, the statisticians, intent on being fair about it, found that even with this new total of 401 the percentage of violent deaths came to 34. Yes, you say, but most of them were probably soldiers. Well, the statisticians have you there, too. They classified their 401 notabilities as statesmen, soldiers, philosophers, authors and so forth. And would you believe it, 64 per cent., or 115 of the statesmen alone had their careers brought to abrupt and untimely endings.

This makes rather logical the conclusion that life to-day is no more perilous than it was in olden times. Upon further reflection, we can go even better than that. Considering the ancients not only ran the risk of death under the wheels of some Patrician's chariot, but might be eliminated in casual raids by neighboring armies, or snuffed out, along with a few hundred thousands of their fellows, in one of the periodic epidemics of the plague or something even less pleasant, our lot is not so bad after all. In spite of murder, suicide and mishap, only 9.5 per cent. of us die violently. Once more the "good old days" theory comes off a bad second. Brantford Expositor.

### Red Cross In Peace Time

#### Society Is Always Active And Ready To Help

Many people associate the Red Cross Society with war and fail to notice the great work it does in time of peace. The fact is the Red Cross is always active somewhere in every country where it has branches, and the organization is such that it is ready to leap to the call whenever and wherever there is an emergency.

This has been exemplified by the wonderful manner in which it has responded to the flood conditions in the United States. Most of the 400,000 homeless people are being cared for by the Red Cross, 171,000 being succored in Pennsylvania alone. A stupendous effort was set in motion at a moment's notice, and without it the municipal, state and federal authorities would have been in a desperate situation.—St. Thomas Times-Journal.

## WAKE UP YOUR LIVER BILE—

### And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile in your system daily. If bile isn't flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes these good, old fashioned little pills to take out these two pounds of bile flowing freely and make you feel "up and up." Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c

## YOUR GARDEN

Even with a very small space, there is a big advantage in having something of a more or less permanent character like perennial flowers. With these there is something to build the rest of the garden around and there are less likely to be long blank periods when there is no bloom available. After a few years general advice will not be needed because the gardener will go on extending here and there, specializing to some extent in favorites, just as the same persons will do in building up a private collection of books.

Lack of variety is the chief fault of the Canadian vegetable garden. Experts point out that there is no excuse for running out of lettuce early in the summer for example, when after the season for the leaf variety head lettuce could be grown and then during the hot weather the Cos type. For the "greens" enthusiast, a few plants of Swiss Chard will provide an abundance of meals. It is worth investigating as is also Broad Beans, which come along about mid-summer, and, later, Broccoli, a refined turnip. Red cabbage and yellow tomatoes will lend interest to the regular types and provide a slightly different flavour. In many places egg plants and peppers can be grown and will be appreciated. They must be started early indoors. The red type of the latter can be used as a pimento filling for sandwiches. In the melon family, will be muskmelons and watermelons, certain varieties of which can be produced in surprisingly wide area of Canada. There is also the little individual Acorn or Table Queen Squash, which is a big improvement over its rather watery ancestors. Leeks add variety to the onion family and tender white radish lengthens the seasons for this vegetable. In the regular lines the season can be greatly extended by using very early as well as very late types. In garden peas, for example, the time of maturity will vary from about 50 days to 75. Instead of planting only one variety it is advisable to include at least three. Early sowing is essential, but in certain parts of the country a fall crop with a quick-growing variety is also possible. In corn, the very early Bantam types mature weeks ahead of the regular season and some of the late, both white and yellow, kinds are on until frost or even after.

Where one is fond of an abundance of bouquets, experienced gardeners advise growing a portion of these in straight rows among the vegetables or in a special cutting garden. Some well designed beds of mixed annuals are spoiled if too many flowers are picked and then again there are certain things like sweet peas, for instance, that have little attractive foliage but beautiful blooms. These might as well be grown behind the regular beds.

### Reason For Custom

Sleeping cars are so arranged that passengers lie "head first" toward the engine because in earlier times soot and drafts were less troublesome that way, explains an ambulance company which considers the opposite way of lying to be more restful in a moving conveyance.

Natives of India cleaned their teeth as far back as 1700 B.C. They used twigs for this purpose.

## ARE YOU MISERABLE?

WOMEN who suffer periodically, who may have side-ache or headache, and those about to become mothers, will find Dr. Pierce's Favorite Prescription a dependable tonic. Read what Mrs. Amy Taylor of 1 McAlpine St., Toronto, Ont., said: "I was so miserable some years ago during motherhood. I seemed to ache all over and suffered from pains and headache day after day. My stomach was upset and I was all asthmatic. I used the bottles of Dr. Pierce's Favorite Prescription and it built me right up so that I came through with very little pain or discomfort."

## FLEMING'S FOLLY

BY  
LAWRENCE A. KEATING

CHAPTER XI.—Continued

"Link," she added on sudden impulse, "do you think this dam is going to bankrupt us?"

Something in her worried tone made Fleming eager to go to any extreme to safeguard Helen and her property. "We'll come through," he said with confidence he did not quite feel. "We still have our steers to sell, and once we get cash for 'em we'll be fixed a lot better. I'll get Marty Bush to make our beef go out first when shippin' opens day after tomorrow. And pay us cash. So, Helen, you better cut out what you're selling and get things all lined up."

He turned a little away. "I'm sorry about Buzz. I planned to give you the surprise of your life, getting him paroled. Well, it was a surprise, but not quite like I expected. Buzz came on the stage while we were with Otto Pieper, and knowing he headed right for the Half Moon, I sent you on home. By the time I got inside he was stuffed with wrong talk against us. Instead of being on our side he's plumb sure the dam won't turn out."

"Beats me," he exclaimed, scowling, "how folks can think that. Gosh, if anybody examines it, they've got to admit it'll work!"

Of course it will work, Link." She listened a moment. "I hear Buzz, I think. Please let me know what goes on."

She was about to trip inside the ranch house when he stayed her. Kevin and Orliss sat waiting on their horses two hundred feet distant but they were conversing with faces turned away. "Helen," Fleming said hesitantly, "being as we're business partners, maybe I shouldn't say this. But business aside, I sort of—I hope you like me pretty well. Do you?" She smiled. "Need you ask?"

"Then—then would you—" He kicked self-consciously at a tuft of bunchgrass. For an instant he hesitated as if debating further speech; but then suddenly lost heart and turned to his horse.

"All right, boys," he called to Kevin and Orliss. "We'll talk wages pronto with your pals. Let's get to the Star Loop."

The three mile ride consumed but a short time. Sure enough, as they neared the two-room temporary ranch house, and the corral, bunkhouse, and small buildings, he made out more than a dozen men lounging about, smoking and watching him expectantly.

He swung from his mount and was approached by a muscular individual in overalls. Buster Townsend's usually cheerful face, round and strewn with freckles, now wore a serious look. "They're hollerin' for pay," he told Link in a low tone. "I tried to hold 'em in, but all but about ten went on strike an' said they were squattin' here till yuh hand over their dough."

"We want cash an' we want it quick!" rasped a scowling workman who guessed Townsend's words.

"We're entitled to it, ain't we boys?" put in a burly, dark-browed fellow, addressing the crowd. This man Link knew for Gyp Vaille, ex-convict and local bully. A great mass of crinkly black hair escaped Vaille's misshapen sombrero, spewing out in the careless mode of a half-breed Indian. Gyp's squinting eyes were hard and shifty, and strapped over his overalls was a pair of walnut-butted sixguns, although in his capacity of dam worker there was no need whatever to carry weapons.

Murmurs of assent greeted Vaille, and the growls of other men made a rumbling sound like thunder across the far distant peaks of the mountain range. But Fleming, with a look of cheerful confidence, strode to the ranch house stoop, the men following sullenly at his heels. On this sight eminence he turned to address them.

"Orliss and Kevin told me how you feel, and I don't blame you, boys. But don't think I'm not in good faith about this wages proposition. I went—"

# Natural Bran

## MAKES YOUR BAKING BETTER

With Quaker Natural Bran you get that real, spicy, nutty flavour . . . the flavour that makes bran dishes so delightful, so tempting. And because it is natural bran, Quaker mixes better, rises lightly and, all 'round, gives you better baking results.

Quaker Natural Bran is healthful, too, for every member of your family. It helps rid the system of impurities naturally, gently and without irritation. Serve bran foods often . . . you'll find with Quaker Natural Bran, they're surprisingly economical.

There's a folder of delicious bran recipes and the valuable coupon in every package. Order your supply now.

SINCE I'VE BEEN BAKING WITH  
QUAKER Natural BRAN, JOHN,  
AND THE BOYS TOO, JUST LOVE BRAN  
DISHES. IT'S SO GOOD FOR THEM!

I FIND IT MUCH  
EASIER TO USE...

SAVING TO BAKE  
WITH QUAKER  
Natural BRAN  
...IT'S MADE ESPEC-  
IALLY, I UNDER-  
STAND, FOR THE  
PURPOSE.

Look for the Quaker Natural Bran display at your grocer's. He has all the things you need for the delicious recipes included in the recipe folder in each package.

## QUAKER Natural BRAN

"To hell with good faith!" broke in Gyp Vaille. "Give us hard cash!"

Plainly he was foremost in stirring up dissension. Buster Townsend's fists doubled and he seemed about to challenge Gyp until with a slight shake of the head Link warned him. "What the heck're you talkin' about? You don't work on this dam any more. I fired you this mornin' for a lazy, good-for-nothin' loafer!"

The man's powerful chest heaved. "I'm owed wages!" he roared. "An' by gosh, I mean to get my rights!"

"You're owed a good slam in the nose," Buster retorted belligerently. "Yuh tried to bust a sluice gate on us, yuh hound! Lettin' it drop 20 feet. I've a good mind to—"

"Hold on, boys!" It was news that Vaille had been discharged, that he had attempted sabotage. But Fleming disregarded this point for the moment. "I started to say," he proceeded calmly, "that Miss Hamilton and I went to Rawhide this afternoon to get your payroll."

"But didn't get it, eh?" guessed a man named Ferguson.

"We got it, all right—eight hundred dollars. But I had to stay in town to meet Buzz Hamilton. You see, I got Buzz paroled to me from prison as a surprise for his sister. I gave her the money and she started here as fast as her hoss could travel."

"Boys," he said soberly, "I'm shore sorry. Helen—Miss Hamilton—got held up. Some dirty skunk wearin' a bandana mask, stepped out of the trees at Iron Spring, and stopped her at the point of a gun. She put up a game fight but of course he was stronger. He grabbed your eight hundred and got away!"

"Held up?"

"She got robbed?"

"Then our money's gone!"

These and similar exclamations broke from the crowd of irrigation dam workers. Instantly Link perceived that by phrasing it as their eight hundred dollars, he had scored a point.

"Yes, she got robbed and pretty much bruised up, fightin' for your rights. Sheriff Stephen is trailin' the cuss right now, and there's a darned good chance of nabbing him quick. Hell sure get the limit for holdin' up a woman an' taking money earned by the sweat of your brow!"

An inspiration prompted him to stride down to Sam Walters. "Sam, I'll pay every cent I owe you if you give me time. Nobody ever said Link Fleming went back on his word. On account of that robbery I'm askin' you to trust me awhile longer."

Plainly taken back by this daring candor, Sam gnawed reflectively at a mustache end. "Yuh liable to go busted?"

"Whoever spread that story lied." The workman hesitated, conscious of all eyes on him. Then he saw Fleming's hand outstretched, and he grasped it. "Pay me up, Link, soon's yuh can. I'll wait."

His pulse sped in triumph. Without turning from the spot, he addressed Chunky Hokanson. "Are

## Little Helps For This Week

Call unto me and I will answer thee, and show thee great and mighty things which thou knowest not. Jer. 33:33.

No voice of prayer to Thee can rise,  
But swift as light Thy love replies;  
Not always what we ask, indeed,  
But O most Kind, just what we need.

If you have any trial that seems intolerable, pray that it may be relieved or changed. There is no harm in that. We may pray for anything not wrong in itself with perfect freedom, if we do not pray selfishly. One disabled from duty by sickness may pray for health that he may do his work, or if we have a besetting sin we may pray to be delivered from it in order to serve God and man, and not be the one to mislead and annoy. But the answer to the prayer may be, as it was to Paul, not the removal of the thorn but a growing insight into its meaning and value. The voice of God in our soul may show us, as we look up to Him, that his strength is enough to enable us to bear it.

## Getting Something Done

### Manitoba's Back-To-Land Movement Has Proved Success

While in other parts of the Dominion there has been a great deal of theorizing about placing unemployed on the land, the Manitoba Government has been dealing with the question in a practical way—getting something done. A report recently presented to the Western Province Legislature indicated that 772 families have been placed on the land, and that of these only 137 have failed to get along and abandoned their holdings. Expenditure on this plan to date has been \$481,776 and of this the Dominion Government contributed \$123,000, or about 25 per cent. It is explained that had these people been supported by direct relief the cost would have been something like \$200,000 more than the total amount expended in placing them on the land including cost of equipment. Toronto Globe.

Most electric fishes have rather weak batteries to keep off their enemies, but the torpedo fish and the electric eel are powerfully destructive.

## Wanted To Play Safe

### Man Withdrew Charge Against Son Of His Barber

Herman Gerofsky, a New York factory owner, does not believe in taking risks. After he had had Joseph Sansone arrested on a charge of theft from the factory he decided, when the case came into court, not to proceed with the charge. The magistrate asked him to explain. "Well," said Mr. Gerofsky, "Joseph's father is my barber. Twice a week I sit in his chair and my throat is at his mercy. Nevertheless the magistrate decided to hold Joseph on a charge of theft."

Plainly taken back by this daring candor, Sam gnawed reflectively at a mustache end. "Yuh liable to go busted?"

"Whoever spread that story lied." The workman hesitated, conscious of all eyes on him. Then he saw Fleming's hand outstretched, and he grasped it. "Pay me up, Link, soon's yuh can. I'll wait."

His pulse sped in triumph. Without turning from the spot, he addressed Chunky Hokanson. "Are

## LOCAL & GENERAL

Sale of House Dresses, 27 Traveler's Samples. Regular \$1.95 dress, es at \$1.50.—Mrs. Wilson, Main St.

A number of members of the local Eastern Star paid a fraternal visit Tuesday evening to Fidelity Chapter at Three Hills.

A Box Social will be held under the auspices of S.C. Group No. 1 on Saturday, May 16 at 8 p.m. in the Peterson Block. Ladies please bring plain boxes, which will be sold from 25c to 50c. A program will be provided. Everyone welcome.

Opportunities for out-of-town sons and daughters to entertain their mothers on Mothers' Day, Sunday, May 10, or fathers on Fathers' Day, a little later, are being given this year by the C.P.R., according to an announcement made by G. E. Carter, general passenger agent of the company. For these two important days in the lives of all parents the C.P.R. is featuring a delivery service of railway tickets whereby a son or daughter can pay for the transportation at the nearest Canadian Pacific office in the municipality where he or she resides, and the order will be sent by telegram to the parent's hometown office and delivered directly to the home without extra charge. This service proved very popular last Christmas and New Year's and is expected to provide a happy holiday for parents with out-of-town children on Mothers' or Fathers' Day this year.

## CARD OF THANKS.

We wish to express our thanks to our friends and neighbors for their kindness and sympathy during our recent bereavement.

The Rempel Family.

## GOPHER POISON. NOTICE.

The Municipality of Westerdale, No 311, has arranged with the dealers in gopher poison at Didsbury, Olds and other points, to supply an equal amount of gopher poison to that paid for by the farmers of the municipality, the arrangement to be in effect until the 1st day of June, 1936.

The Council requests that the farmers place their poison early.

A McNaughton, Sec-Treas.  
 Municipality of Westerdale  
 No. 311

## LOCAL & GENERAL

Olds is advertising its annual Sports Day for May 25.

Mr. and Mrs. C. H. Adshead were Calgary visitors last weekend.

Mr. and Mrs. Scheidt attended the funeral of Mrs. McEwen which was held at Red Deer on Friday.

Mr. and Mrs. Frank Kaufman and Evelyn motored to Calgary on Saturday.

J. G. Garner, of Kelowna, who recently ran a bake shop in Didsbury, is visiting a son east of town.

We have Boys Scampers from \$1.75 up. Just the thing for school wear.—T. E. Scott.

Commencing this week the shows at the Opera House on Wednesday and Friday evenings will start at 8:30 instead of 8 as formerly.

Miss Margaret Ranton and Miss B. Peterson of Lacombe visited with the former's parents, Mr. and Mrs. E. G. Ranton over the weekend.

A meeting of the Hospital Aid will be held at the Knox Church Parlors on Tuesday, May 12. All ladies interested are invited.

Have you bought your ticket for the Band Concert? Each ticket gives you a chance to win a \$100.00 Chesterfield Suite.

We carry a line of Boys Shirts from \$1.75 up.—T. E. Scott.

Mr. Melvyn Hugel, of the Royal Bank, Hanna, spent the weekend with his parents, Mr. and Mrs. J. E. Hugel.

Mrs. Ranton, Grace and Dorothy Ranton, Doris Friesen and Jessie McCoy were a party to motor to Calgary on Tuesday.

Complaints have been received of children playing outside the church during service on Sunday evening. Their noise interfered with the service.

Mrs. Currie, who for years has lived in the southern part of town, moved this week to Innisfail. Her son, Jack Currie, has a position in the Jenkins' Groceria at that point.

A. Melville Anderson, optometrist and sight specialist, will make his regular visit to the Rosebud Hotel Monday, May 11. Eyes examined and glasses fitted.

For the best and cheapest in Work Shoes—Buy from T. E. Scott.

The Congoleum Guessing Competition conducted by the Builders' Hardware last week was won by Mr. Ira Stauffer. The concealed number was 3461 and the winning guess was 3456.

Owen Hardbattle was the winner of a consolation prize in the Wildfire Coal Contest, for which the Atlas Lumber Co. here are agents. He was the only prizewinner in the Didsbury district.

The annual meeting of the Fish and Game Association will be held at the C.P.R. waiting room on Monday evening at 8 p.m. A draft of the proposed new fishing regulations will be discussed at the meeting.

Alexander Lammle, 36 years old, died in a Calgary hospital Thursday evening, April 23 following a brief illness. Before going to Calgary five months ago the late Mr. Lammle resided in Swallowell. He also lived at Didsbury for five years.

We have a full line of Boys Rubber-Soled Shoes from 70c a pair up.—T. E. Scott.

Mr. W. J. McCoy was successful in obtaining the graveling portion of the road contract awarded by the provincial government to F. Mannix, of Calgary. The contract is for the road from Lethbridge to the new sugar refinery at Picture Butte and calls for 1,000 yards of gravel per mile for 27 miles.

Mrs. Erven M. Rodney was hostess at a shower given at Springside School on Saturday evening in honor of Mrs. Ruben W. Rodney, a recent bride. Dancing was enjoyed by all and cowboy songs were rendered by Messrs. Victor Olsen and James Nelson. The bride was presented with a basket filled with useful gifts and carried by little Doreen Holmes and Mirial Collinge. A beautiful lunch was served and the hostess thanked friends for their kindness.
